

### M.S./Ph.D Assistantship

A research assistantship in Soil Science/Agronomy at Auburn University is available. This assistantship includes an annual stipend (M.S. \$14,429, Ph.D. \$16,616), tuition waiver, and a preferable start date of fall, 2008. The research project involves evaluating relationships crop management systems and soil chemical parameters for improving crop management systems in the Tennessee Valley of Alabama. Education/experience in soil science, agronomy, and/or natural resource sciences is required. Familiarity with soil sampling and analysis is preferred. For more information, please contact Julie Howe (jhowe@auburn.edu) or Joey Shaw (shawjo1@auburn.edu).
