

AU Coast-to-Coast Renewable Energy Tour

Day 1, leaving from Charleston Harbor with USS York Town in the background

Starting off on switchgrass briquettes, donated by Ernst Conservation Seed.

Filling up with wood on I-16 en route to Soperton, GA.

High school students at the Range Fuels site, Soperton, GA.

Day 2: field chopping switchgrass at Auburn University's research farm.

Day 3: Wayne being interviewed by a TV station, Lafayette, LA.

Wayne using wood to power a table saw to cut wood in a sorghum field where there is obviously no power available from the grid.

Wayne filling up with wood in front of an oil rig. What a statement!
