Foreword <i>N.W. Buehring and W.L. Kingery</i>	III
POSTER PRESENTATIONS	
Interactive effects of wheel traffic and tillage system on soil carbon <i>W.J. Lee, C.W. Wood, D.W. Reeves, J.A. Entry, and R.L. Raper.</i>	1
Poultry litter nitrogen utilization by eight grass species <i>Lance M. Tharel and James R. King</i>	5
Winter cover crops' influence on cotton yield <i>T.C. Keisling, C.S. Rothrock, and George Palmer..</i>	9
Profitability of seven nonirrigated soybean cropping rotations on a shallow silt loam soil <i>T.C. Keisling, C.R. Dillon, L.R. Oliver, J.M. Faulkner, and A.G. Flynn</i>	12
No-tillage field corn and vegetables using yard waste compost <i>R.N. Gallaher and R. McSorley</i>	16
Supplemental nitrogen fertilizer for no-tillage tobacco following simulated excessive rainfall <i>E.B. Whitty and R.N. Gallaher</i>	19
Effect of tillage and liming on nematode populations <i>R. McSorley and R.N. Gallaher</i>	23
Nitrate leaching as affected by tillage and winter cover cropping <i>D.K. McCracken, J.E. Box, Jr., W.L. Hargrove, M.L. Cabrera, J.W. Johnson, P.L. Raymer, A.D. Johnson, and G.W. Harbers</i>	26
Corn weed management in tall fescue sod <i>W.W. Witt, J.R. Martin, and C.H. Slack.</i>	31
The effects of organic matter and tillage on maximum compactibility <i>Grant W. Thomas, Gerald R. Haszler, and Robert L. Blevins</i>	34
Conservation tillage systems for corn production on a loessial silt loam and alluvial clay in Louisiana <i>H.J. Mascagni, Jr., R.L. Hutchinson, D.B. Reynolds, B.R. Leonard, and D. Burns</i>	37
Influence of tillage and wheat cover crop on herbicide inputs in rice <i>David L. Jordan, Patrick K. Bollich, and Michael P. Braverman</i>	41

Sweetpotato response to cover crops and conservation tillage <i>Herby Bloodworth and Mike Lane</i>	45
Conservation tillage effects on productivity in the blackland prairie <i>R.L. Ivy, N.W. Buehring, S.R. Spurlock, J.D. Summers, M.A. Blaine, J.D. Roberts, and G.A. Jones</i>	48
Effect of burndown herbicide, tillage, and N rate on fall growth of sod-seeded ryegrass <i>David Lang and Robert Elmore</i>	52
Fluometuron interactions in crop residue-managed soils <i>Martin A. Locke, Robert M. Zablotowicz, and Lewis A. Gaston</i>	55
Effect of soybean-corn rotation and tillage on ground residue cover and canopy development <i>G.A. Jones, N.W. Buehring, R.L. Ivy, and J.D. Summers</i>	59
Performance of soybean tillage trials in the brown loam region of Mississippi <i>Joe Johnson, Harold Hurst, and Keith McGregor</i>	64
Soil strength for deep-tilled wheat and soybean doublecrop in the Southeastern Coastal Plain <i>W.J. Busscher, J. Frederick, and P.J. Bauer</i>	66

ORAL PRESENTATIONS

Assessing the value of pre-plant and post-plant tillage for full-season soybeans on clayey and silt loam soils <i>T.C. Keisling, C.R. Dillon, L.R. Oliver, E.L. Baldwin, L.O. Ashlock, and G.M. Palmer</i>	69
Estimation of nitrogen and phosphorus in Florida dairy wastewater for silage systems <i>R.N. Gallaher, T.A. Lang, and H.H. Van Horn, Jr.</i>	72
Manure as a source of leached nitrate in tilled and untilled soil <i>J.H. Grove, C.S. Stoddard, and W.D. Thom</i>	77
Fertilizer nitrogen management in drill-seeded stale seedbed rice <i>Patrick K. Bollich</i>	82
Influence of herbicide-desiccated cover crops on biological soil quality in the Mississippi Delta <i>S. C. Wagner, R.M. Zablotowicz, M.A. Locke, R.J. Smeda, and C.T. Bryson</i>	86
Low-till parabolic subsoiler: a new design for reduced soil surface disturbance and power requirement <i>Gordon R. Tupper</i>	90
Long-term crop response to conservation tillage <i>G.B. Triplett and S.M. Dabney</i>	93
Post-CRP land management and sustainable production alternatives for highly erodible lands <i>J.H. Stiegler, T.F. Peeper, and T.H. Dao</i>	97
Cotton response to reduced tillage and cover crops in the Southeastern Coastal Plain <i>P.J. Bauer, W.J. Busscher, and J.M. Bradow</i>	100
Population dynamics of insect pests and beneficial arthropods in a crimson clover/cotton ecosystem with conservation tillage cotton <i>G.S. McCutcheon, P.J. Bauer, J.G. Alphin, and J.R. Frederick</i>	103
Weed management in no-till cotton utilizing a hooded and a post-directed sprayer <i>C.L. Brown, J.E. Bradley, and R.M. Hayes</i>	108
Compliance and cotton tillage trends <i>H.C. Bogusch</i>	111
No-till, no-herbicide systems for production of transplanted broccoli <i>Ronald D. Morse</i>	113
